

ПОЛИВОКС™

**ELTA
MUSIC**

The Polivoks Filter module, from Elta Music, utilizes the classic Soviet filter chip for a unique and iconic filter tone, and bring it to the Eurorack modular format. It provides two CV inputs with individual depth pots for ultimate control over cutoff frequency. One input with sensitivity control and four outputs available simultaneously, lowpass, bandpass, highpass, and notch filter types.

Specifications:

Width: 10HP

Current: 20mA

Power cable 1 pcs
included Screw 2 pcs
